

ARE YOU READY FOR OUR NEW AND SIMPLIFIED

WEB PLATFORM ?

WE'VE HEARD YOU LOUD AND CLEAR!

The PPPC has heard you! Because we always want to offer the best to our members and provide the tools that you really need, we will replace the PROMOCAN platform by a brand new platform!

DESIGNED BY A CANADIAN AGENCY!

We've entrusted the mandate to a Canadian company that took the time to meet many of our members (distributors and suppliers) to understand your real needs. It is in this way that we will be able to offer you a platform that perfectly matches with your expectations.

OUR OBJECTIVES?

Create an indispensable tool for your daily activities.

Optimize your work processes by automating and facilitating several steps.

Provide quick and effective technical support to our members.

BENEFITS FOR DISTRIBUTORS

With this new platform, every task will be easier and more efficient!

Centralize all information in a fast and easy to use platform

Standardize content and product data in both languages (bilingual)

Improve the performance of product research (speed and relevance)

Rapid and easy to use quotation system

Simplify the product catalog production process

Improve technical assistance and response speed for members

Automate order management operations to save time and money

Add the ability to select and prioritize your favorite suppliers

Product information is always up-to-date

Activate e-commerce to sell your products online

Other benefits : Improved website integration of product data | Integrate google analytics to analyze user behavior | Optimize the platform for better SEO in google | Provide related services well integrated with the platform to improve communications and marketing solutions offered to members.

BENEFITS FOR SUPPLIERS

With this new platform, it will be easier for your distributors to find your products and for you to update your list every year! A better visibility means more sales!

Facilitate product updates for suppliers

Improve technical assistance and response speed for members

Offer a better website integration of the product data

Centralize all information in a fast and easy to use platform

Automate order management operations to save time and money

Simplify the product catalog production process

Improve the performance of product research (speed and relevance)
